

Messages to Parents

- 1) To make sure your kid is fed and has sufficient sleep before attending class.
- 2) Usually it takes 1 to 2 months for kids to adapt to a new playgroup environment, particularly if they have not joined playgroup before. If your kid reacts negatively in a strange environment, embrace the kid positively to help him/her acclimatize gradually.
- 3) In order to provide a virus-free and hygienic learning environment, if your kid/parent/guardian has any symptom of flu or other sickness, please do not attend class in BKL.
